SHE HAD CONSTANT

Until Relieved by Lydia E. Pinkham's Vegetable Compound.

But now I do not have any of these troubles. I have a fine strong baby

The above is only one of the thou-sands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

COMPROMISE ENDS STRIKE OF SEAMEN

White Star Line Grants \$2.50 Increase, Half the Amounted Demanded.

London, June 16 .- It was announced last evening that the White Star line and the seamen's union had arranged a Idaho Sugar company. settlement of their differences, the White Star conceding an advance of \$2.50 a month in wages to all employes involved. This is one-half of the amount demanded by the strikers.

REGARDS HIS CURE AS A MIRACLE

This Illinois Man Had Stomach Trouble and Was Becoming Paralyzed.

Mr. J. F. Bennington, of Dallas City, Ill., regards his cure by Dr. Williams Pink Pills as a miracle. He is well known both at Stronghurst, Ill., where he formerly resided and at La Harpe. For years he has been recommending the pills that cured him. He says: "My stomach trouble, which afflicted

me for about two years, began with a general weakness. I didn't have strength enough to hold up my head and could eat nothing but lactated food for over six months, while it was more than a year before I could eat any solid food. I had palpitation of the heart and my breath was short. My left leg and hand gradually became numb and I could not use either for a long time. At first my hand felt full of needles when I closed it; afterwards there was no feeling in it at all. I had many sleepless nights and suffered intensely.

'I doctored at Stronghurst and La

Harpe and had two specialists from Chicago, but there wasn't one among the doctors who could tell what my trouble was and their treatments did not help me. My brothers moved me to La Harpe from Stronghurst during my sickness but I had no hopes of ever getting well. I took electric treatment without any help and many medicines with no better result. My home doctor came to see me one morning after he had been treating me for three months and told me that he couldn't do any more for me and that I ought to go to the Springs. But as I couldn't sit up or walk I kept on trying different doctors for eighteen months. When one is sick some one always suggests a remedy and in my case an old lady friend recommended Dr. Wilkams' Pink Pills and I decided to try them. I took them for two weeks, carefully following the directions and at the end of that time began to crave a good meal. hand and leg got so that I could use them again. I gradually regained my health and weight and have worked as ever from that time. I haven't missed work on account of sickness but two or three days in the last nine or ten years. My cure was certainly a miracle as all my friends and relatives expected to

hear of my death."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

vest of wheat in British Indian estimated at 369,000,000 bushels, surpassing all previous yields, and a record area sown to spring wheat in western Canada, where 90 per cent. of the Dominion wheat is grown, giving rise to seemingly extravagant estimates yield, are the features of the world's review of May agricultural news, announced by the department of agri-culture yesterday. In other respects, foreign agriculture in general made a reasonable progress.

SEN. NELSON HITS TREATY

Says President Taft Exceeds His Authority

RIGHT TO MAKE AGREEMENT

Is Doubted by Speaker, Who Declares Functions of Senate Are Usurped -Farmers Deprived of Constitutional Protections.

Washington, June 16.—Senator Nelson of Minnesota spoke at length yesterday in opposition to Canadian reciproc ity. He contended the president had no authority to undertake negotiations with Canada, and charged that the chief executive had asurped the treaty making power of the Senate. Disaster for the farmers of the country, he declared, would follow the passage of the reciprocity bill. Referring to that section of the constitution authorizing the president to make treaties only when thirds of the Senate concurs, Mr. Nelson said:

"In the case under consideration the president has, through the state department, made an agreement or treaty which he seeks to ratify not by a two thirds vote of the Senate, but by a majority of the Senate, supplanted by a mere majority of the House of Repre sentatives, or by a mere legislative act. And, in this way, he evades the treatymaking provision of the constitution. this is proper in the case of commercia trade agreements, why cannot the sam course be pursued in respect to other subjects, and thus practically transfer the treaty-making power from the president and the Senate to the president and Congress? The trade agreement submit ted by the president in this instance for ratification by Congress and not by the Senate alone has, as far as I have been able to ascertain, no precedent in our constitutional history or the his tory of the executive department."

Insisting that the president had no authority to "bargain with a foreign country or to promise it that he would use his influence to compel Congress to enact certain legislation." Mr. Nelson said: "It seems to me that the president is depriving the farmers of this country of their constitutional protection in two-thirds vote of the Senate. agreement would not be ratified if it were submitted to us for ratification pursuant to the spirit of the constitu-

ommittee of the Senate investigating Lorimer's case at a meeting yesterday morning definitely determined the question of counsel for the committee by the selection of John Marble of Washington, who for some years has been the attorney of the interstate commerce ommission and who has had a wide experience in the investigations of that engo, who served as counsel to the Helm committee of the Illinois Senate in its

HIS MANLY BEAUTY

By WALTER EMMONS BROOKS

Copyright by American Press Associntion, 1911.

At twenty-two I lived in a city and in a rear room. Back of the house were yards just deep enough for clotheslines and then the rears of other houses.

One day while looking out of my window I saw a girl sitting pensively at a window of a house across the yards. She was doing something with her hands which I inferred to be knitting, though it was done beneath the sill, so that I could not be sure. She was looking down pensively, but whether her eyes were bent on her work I could not tell. I was struck with her regular features and, above all, with an expression of sadness that seemed inappropriate to a young

It doesn't require much to set a young man's fancy flying, though by this I do not mean to belittle the picture to which I have referred. I saw her about the same time every day and fell to dreaming about her. The fuel of love is imagination. A youngster is attracted to a girl not for what she is, but for what his fancy paints her. And girls are still more apt to endow a man with noble qualities and love him for them.

It was in the summer time, and when I came home from business every day at 6 it was still very light, and every day at that hour I saw the girl opposite sitting in the same position. Since I stood right up before my own window it was impossible that she should not have been aware of my presence there. Occasionally she but if after the expiration of that would turn ber face outward, but 1 could not see that her eyes ever rested upon me. But I remembered that a pure girl would not gaze upon a stran- life. From Sunday to Sunday seemed ger-certainly not when he was look- like from month to month. After

attractive as possible, then threw week. open the shutters with as much clatter the sound, she would turn her face in my direction, but only momentarily at me as though she had never seen and without any look of recognition. This I put down to her native modthat there was a young man opposite, and it occurred to me that if she considered that young man especially good looking she might fall in love with him, for this was not only my theoretical basis of love at that time, but I saw no other way of attracting

I spent some time discovering the young lady's name, then wrote her a note couched in as manly and respectful terms as I knew how. I had no thought of making headway by what I wrote, but I must open communicathat she had for my personal appear-

To make a long story short, I received a courteous reply to my note, the young lady stating that, though she that I am rather homely than handcould not consent to a correspondence some. with a stranger, in case I could find means of making myself known to her through a mutual friend or otherwise, should my position and character prove satisfactory, she would be happy to have me call upon her.

some time before my mirror wondering that the girl should have found any good until she used Comfort Powder, such attractiveness in it as to call which gave quick relief, and less than forth so favorable a reply. I set my wits to work to discover some mutual friend to introduce me; but, having recently come to the city a stranger, I knew very few people. Finally I wrote another note to the girl I ad- heat, scalding, and scaly scalp. It's no mired, stating the case and asking more like talcum then cream is like permission to furnish references. To this I received a reply that she
